# AI + QUANTUM **OPTIMIZATION** APPLICATION TO HELP ON SITE TECHNICIANS TO RAPIDLY REPAIR **ELEVATORS**

• LINKEDIN: Quanfi: Overview | LinkedIn

### CHALLENGE

- IDEA: Elevators in hospital where time is critical to patients survival
- Life critical situations such that elevators are use to carry trauma or stroke patients to the OR
- It is important to keep seamlesss mobility

### WHAT IS THE SYNERGY BETWEEN QUANTUM AND AI?

- Al formulates the problems for quantum optimization
- Quantum algorithm solves the optimization problem

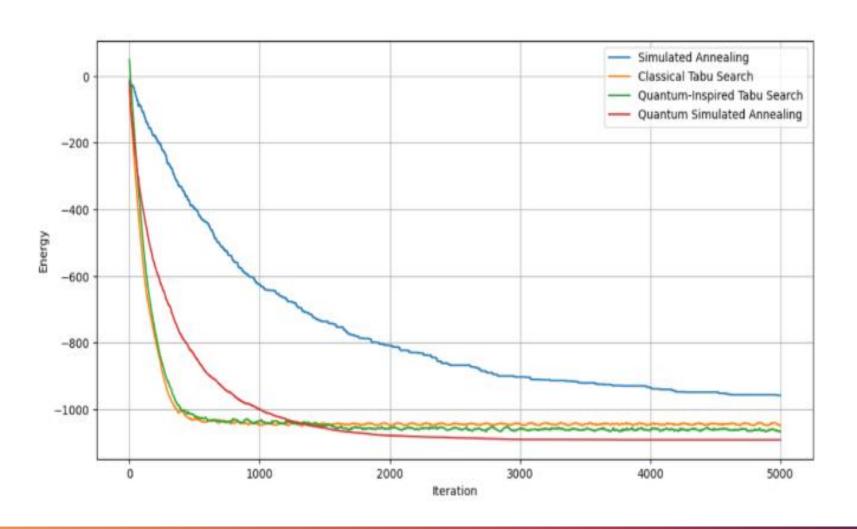

Al updates the change in the problem specifications

- Quantum algorithm runs again with updated rules
- All can conduct sanity check for solutions
- Good quality quantum optimization are solved

 Learn to how to better formulate problems that help clients more

Learning path for better quantum algorithms

## OPTIMIZATION WITH CLASSICAL AND QUANTUM

Classical algorithms: simulated annealing and Tabu search

Quantum algorithms: quantum inspired Tabu search and quantum simulated annealing (GPU and CPU used.)

In this case, quantum simulated annealing leads to best result. In case of elevator, it means less repair time.

# ESTIMATED KONE AI + QUANTUM OPTIMIZATION MARKET POTENTIAL THOUGH MICROSOFT

How to estimate the potential market size of quantum service for KONE?

Estimation 1: Quantum optimization market is estimated to be 32 to 52 billion globally in 2035 (source McKinsey Quantum Report). And KONE 10% of the market share of 116bn EUR in elevator industry. The quantum op market for KONE is EUR 30-50m in 2035. Early adoption for 2030 is EUR 12-20m.

Estimation 2: Adding AI and Quantum together, the synergy can increase by 20%. For KONE it means EUR 50 to 80m in 2035.

Estimation 3: Even more synergies with AI + Quantum with Innovation in Services

How to estimate the profitabilityy of quantum service for KONE?

Operating margin is currently 11% of EUR 11bn revenue. It can be reduced by 2% to 9%, meaning a reduction of at least 2.42bn per year.

### AI UTOPIA

- Al formulates the problems for quantum optimization
- Al updates the change in the problem specifications
- Al can conduct sanity check for solutions
- Learn to how to better formulate problems that help clients more

### QUANTUM UTOPIA

- Quantum algorithm solves the optimization problem
- Quantum algorithm runs again with updated rules
- Good quality quantum optimization are solved
- Learning path for better quantum algorithms

REALITY: AI NOT THERE YET, QUANTUM NOT THERE YET

#### THANK YOU FOR YOUR ATTENTION!
